

Avro®

The seating ecosystem
built for the future.

DESIGNED BY PEARSON LLOYD

ARCONAS

Avro is a complete, high-performance seating ecosystem designed to meet the evolving needs of the modern traveler.

Created to elevate and enhance today's passenger experience, Avro offers terminal operators a single, endlessly flexible seating system for all types of travelers.

With its combination of elegant design, vivid colors, visionary engineering, and integrated power, Avro elevates any interior space, transforming high-traffic waiting areas into VIP lounge experiences.

Simple, beautiful, endlessly adaptable –
Avro is the seating ecosystem built
for the future.

Avro Collections

Reinforced Polypropylene Composite Seat

Avro's seating shell is crafted from a high-pressure injected polypropylene-reinforced composite, ensuring exceptional durability and easy maintenance. The smooth, wipe-clean surface makes cleaning and sanitizing quick and efficient. UV-stable color palette, these seats are built to withstand even the busiest environments.

Upholstered Padded Seat

The Avro upholstered seat features Arconas' standard fabrics, allowing for customization and superior comfort. Easy to replace when needed, it offers both practicality and longevity, ensuring a comfortable experience for passengers.

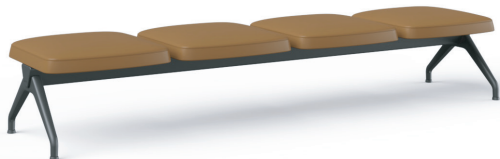

Avro lounge

The Avro Lounge offers plush, padded seating with the option of a padded arm or tablet arm. Ideal for areas requiring comfortable seating, it combines durability with enhanced comfort, ensuring a premium experience for high-traffic spaces.

Avro Recliner

Designed for high-traffic environments, the Avro Recliner provides passengers with a place to unwind and relax. With ergonomic support to reduce fatigue, it enhances comfort and well-being. Upholstered with Arconas' standard fabrics, the Avro Recliner blends durability with relaxation, offering a premium seating solution.

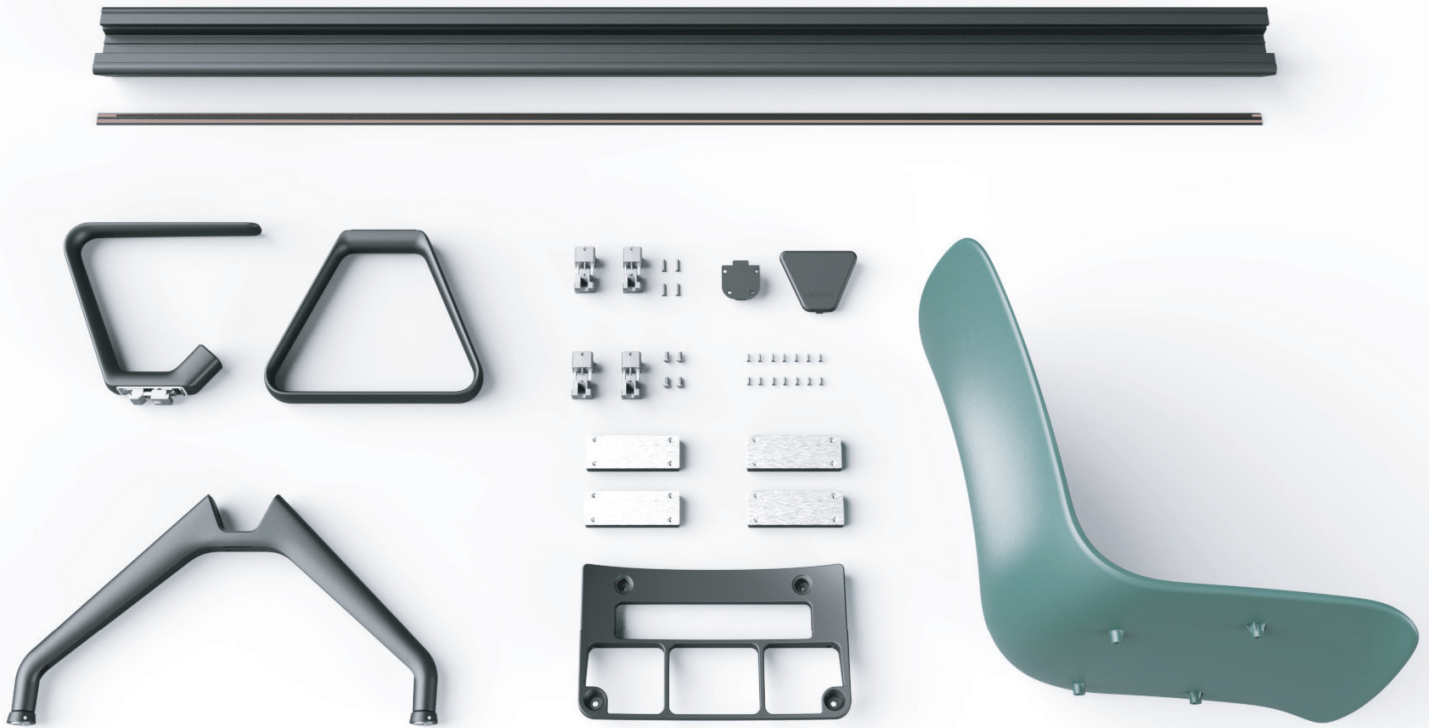

Avro Lounge Bench

The Avro Lounge Bench is a cushioned, backless seating option that offers flexibility and space efficiency. Perfect for high-traffic areas, it balances comfort with durability to provide a reliable seating solution.

Avro Wood Bench

The Avro Wood Bench brings the warmth of sustainable wood to any space. With its durable construction and timeless design, it integrates seamlessly with Avro's other seating options. Made from eco-friendly materials, this bench offers a refined yet resilient seating solution for high-traffic environments.

Eco-Efficient by Design

Sustainability is at the heart of Avro's design. The structural components are made from 100% recyclable aluminum, and each element is designed to minimize waste and maximize longevity. With its modular design, worn or damaged parts can be easily replaced rather than discarded, extending the seating system's lifespan.

Avro's seating shells are composed of 75% recycled material. At the end of their lifespan, they can be recycled to create a multitude of items such as dishware, clothing, industrial fibers, containers, compost bins, storage racks and more.

Shipping is made more efficient through stackable seating shells, while the fully demountable design simplifies onsite assembly, helping reduce carbon emissions.

APPROVALS & CERTIFICATIONS

Power Extension:

- DC only power on unit
- USBC, USBA and Qi wireless charging
- LED light power indicator
- DC power converter
- Case leg power converter

ISO 9001 / 14001
ANSI/BIFMA 5.4-2020

Future-Proof Power Integration

Avro seating integrates cutting-edge technology to meet the needs of today's connected travelers. USB-A and USB-C outlets are seamlessly incorporated into the armrests, allowing passengers to charge their devices or work while waiting. The low-voltage electrical system is designed for safety, with secure access limited to maintenance staff.

The patented outlets are also retrofittable, making it easy to upgrade as technology evolves. Avro is designed to keep pace with the future, ensuring it remains a reliable and adaptable solution for years to come.

POWER

INTEGRATED POWER

Power magnetic key to release the Avro outlet for replacement, repair and maintenance.

POWER POP

Power pop is a magnetic key used to release the Avro outlet for easy replacement, repair and maintenance.

The power transformer mounts seamless onto the beam.

ARMS

Arms are powder-coated die-cast aluminum.

Cantilever arm

with or without power
(Available on Avro Shell,
Upholstered Seat, Recliner)

Double cantilever arm

with or without power
(Available on Avro Shell,
Upholstered Seat)

Loop arm

(Available on Avro Shell,
Upholstered Seat)

Tablet arm

(Available on Avro Shell,
Upholstered Seat, Lounge)

Tablet drink holder arm with USB

(Available on Avro Shell,
Upholstered Seat, Lounge)

Wireless tablet drink holder arm with USB

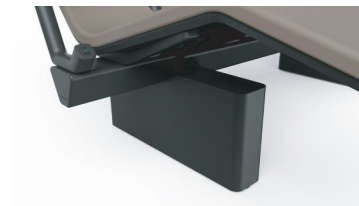

(Available on Avro Shell,
Upholstered Seat, Lounge)

LEGS

Legs are made from powder-coated die-cast aluminum.

Universal anti-scratch glides
can also be floor mounted.
(Upholstered Seat, Recliner)

Case leg for recliner only

FEATURES

CONSTRUCTION

The extruded aluminum support structure and patented universal beam connector are engineered to accommodate Avro's entire extended family of seating.

SEAT

Avro seating shells are composed of 75 % recycled Polypropylene Composite.

Upholstered pads are easily replaced on site by removing the screws.

TABLES

Tables are made of a solid core with Fenix HPL top and bottom finish

10 in. rectangle

20 in. square

20 in. round

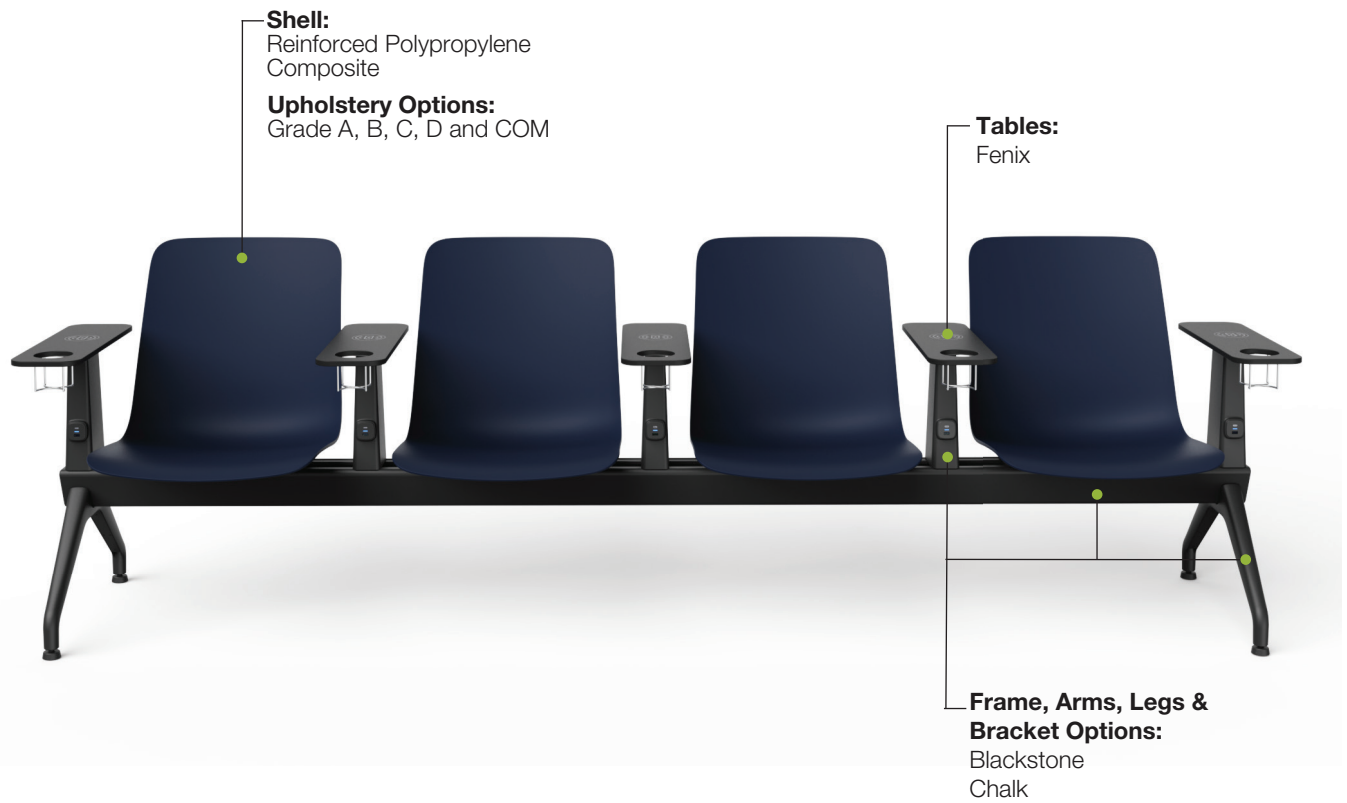

33 in. corner round

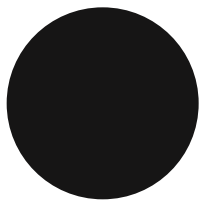

Priority PRM seating raised seat position assists people with reduced mobility to transition in and out of a chair with greater ease.
