TWENTY-TWENTY

Overview

Twenty-Twenty is a collection of round and square ottomans designed for public places. Aptly named for its size, the square ottoman measures 20" x 20" and the round ottoman has a diameter of 20 inches.

They can be used as a side table — with hard top, and complement lounge seating for waiting areas.

Construction Details

Ottoman

- The Ottoman is made from molded polyurethane foam over a core. The core is made from a reclaimed bonded fiber caped top and bottom with plywood (1/2" top, 3/4" bottom).
- The core is glued and screwed together.
- Environmentally friendly construction: CFC-free fire retardant HR biofoam, low V.O.C. and formaldehyde free.
- The polyurethane foam exceeds CAL-117 flammability.
- The bottom plate is fitted with 4 adjustable nylon glides for floor protection. Available with castors.

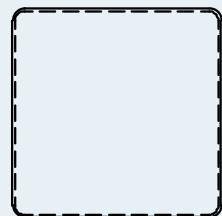

Upholstery

- Upholstery options include vinyl, faux leather, leather and woven textiles.
- Upholstery is easily removed and replaced.

Assembly

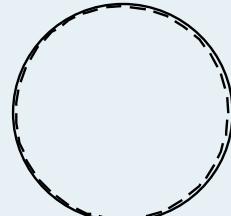

- Units are shipped fully assembled.
