

ETTA

Exclusively distributed by **ARCONAS** for the transportation market.

KEILHAUER

Offering a quiet retreat within busy transportation hubs, the Etta privacy chair creates a sense of comfort and enclosure without feeling disconnected from its surroundings. Its sculptural silhouette provides a welcoming place to read, work, recharge, or simply pause between journeys.

Thoughtfully designed for high-traffic environments, an integrated clean-out gap between the seat and back simplifies maintenance, while the curved back offers visual privacy and naturally defines waiting areas without closing them off. Whether used individually or in clusters, Etta creates inviting spaces that support moments of focus and respite throughout the travel experience.

Key features:

- Removable seat cushion
- Power unit containing one power outlet, one USB-A port, and one USB-C port
- Floor mounting
