

Meanwhile

Make every wait enjoyable

ARCONAS

Enjoy the Art of Waiting

Meanwhile is elevated lounge seating that blends elegance, integrated power, and practical versatility to enhance the passenger experience.

Designed to encourage interaction, Meanwhile offers style and comfort without sacrificing capacity.

With Meanwhile, waiting isn't just a pause—it's a part of the passenger journey that becomes a moment worth remembering.

Versatile Design for Meaningful Connection

Meanwhile's outward-facing layout creates a dynamic environment where passengers can connect, unwind, or enjoy moments of solitude.

Meanwhile's open design allows for families and large groups to stay together, while the strategic addition of arms can create opportunities for more personal space.

Complementary to Existing Seating Systems

Designed to complement existing tandem seating collections, while maintaining the same seating capacity, Meanwhile enhances terminal spaces by providing luxurious, lounge seating that adds interest and versatility to terminal layouts.

Meanwhile's two standard rectangular configurations—Small (seats 6) and Large (seats 8)—allow for flexible layouts that accommodate various group settings and space requirements. For a more natural touch, the distinctive Bean shape (seats 6) adds fluidity and a soft, sculptural aesthetic to terminals.

Built-In Power for Device Charging

Meanwhile comes equipped with optional power, ensuring that devices stay charged.

The optional top mounted power includes USB-A, USB-C, AC and wireless charging. European and UK power outlets available.

Standard and tablet drink holder arms can incorporate USB-A and USB-C power.

Sophisticated form meets function

Meanwhile is designed to enhance the identity of the terminal, blending seamlessly into its surroundings or standing out with intention.

Meanwhile is available in Arconas' wide range of standard fabrics. The top surface comes in your choice of Arconas' standard Fenix or wood-look phenolic Fenix—refined, durable finishes that add warmth and sophistication to any terminal space.

248.8 cm W x 76.2 cm H x 142.2 cm D

Bean

90.5" W x 30" H x 56" D
230 cm W x 76.2 cm H x 142.2 cm D

The Meanwhile was conceived in Italy by CMP. CMP is an acronym of Michele Cazzaniga, Simone Mandelli and Antonio Pagliarulo, the three founders and friends who gave birth to the studio in 2009. The distinctive feature of all CMP's works could be identified in the materialization of visual connections between objects of the past, objects of popular culture

and natural elements. The latter are the basic ingredients of each project, which are then combined by intuition, and simplified through the three-way dialogue, to produce simple and timeless concepts. By combining different skills CMP is able to cover many areas of a creative process: furniture design, graphic design and corporate identity design.
