

ARCONAS

Flyaway

Look Book

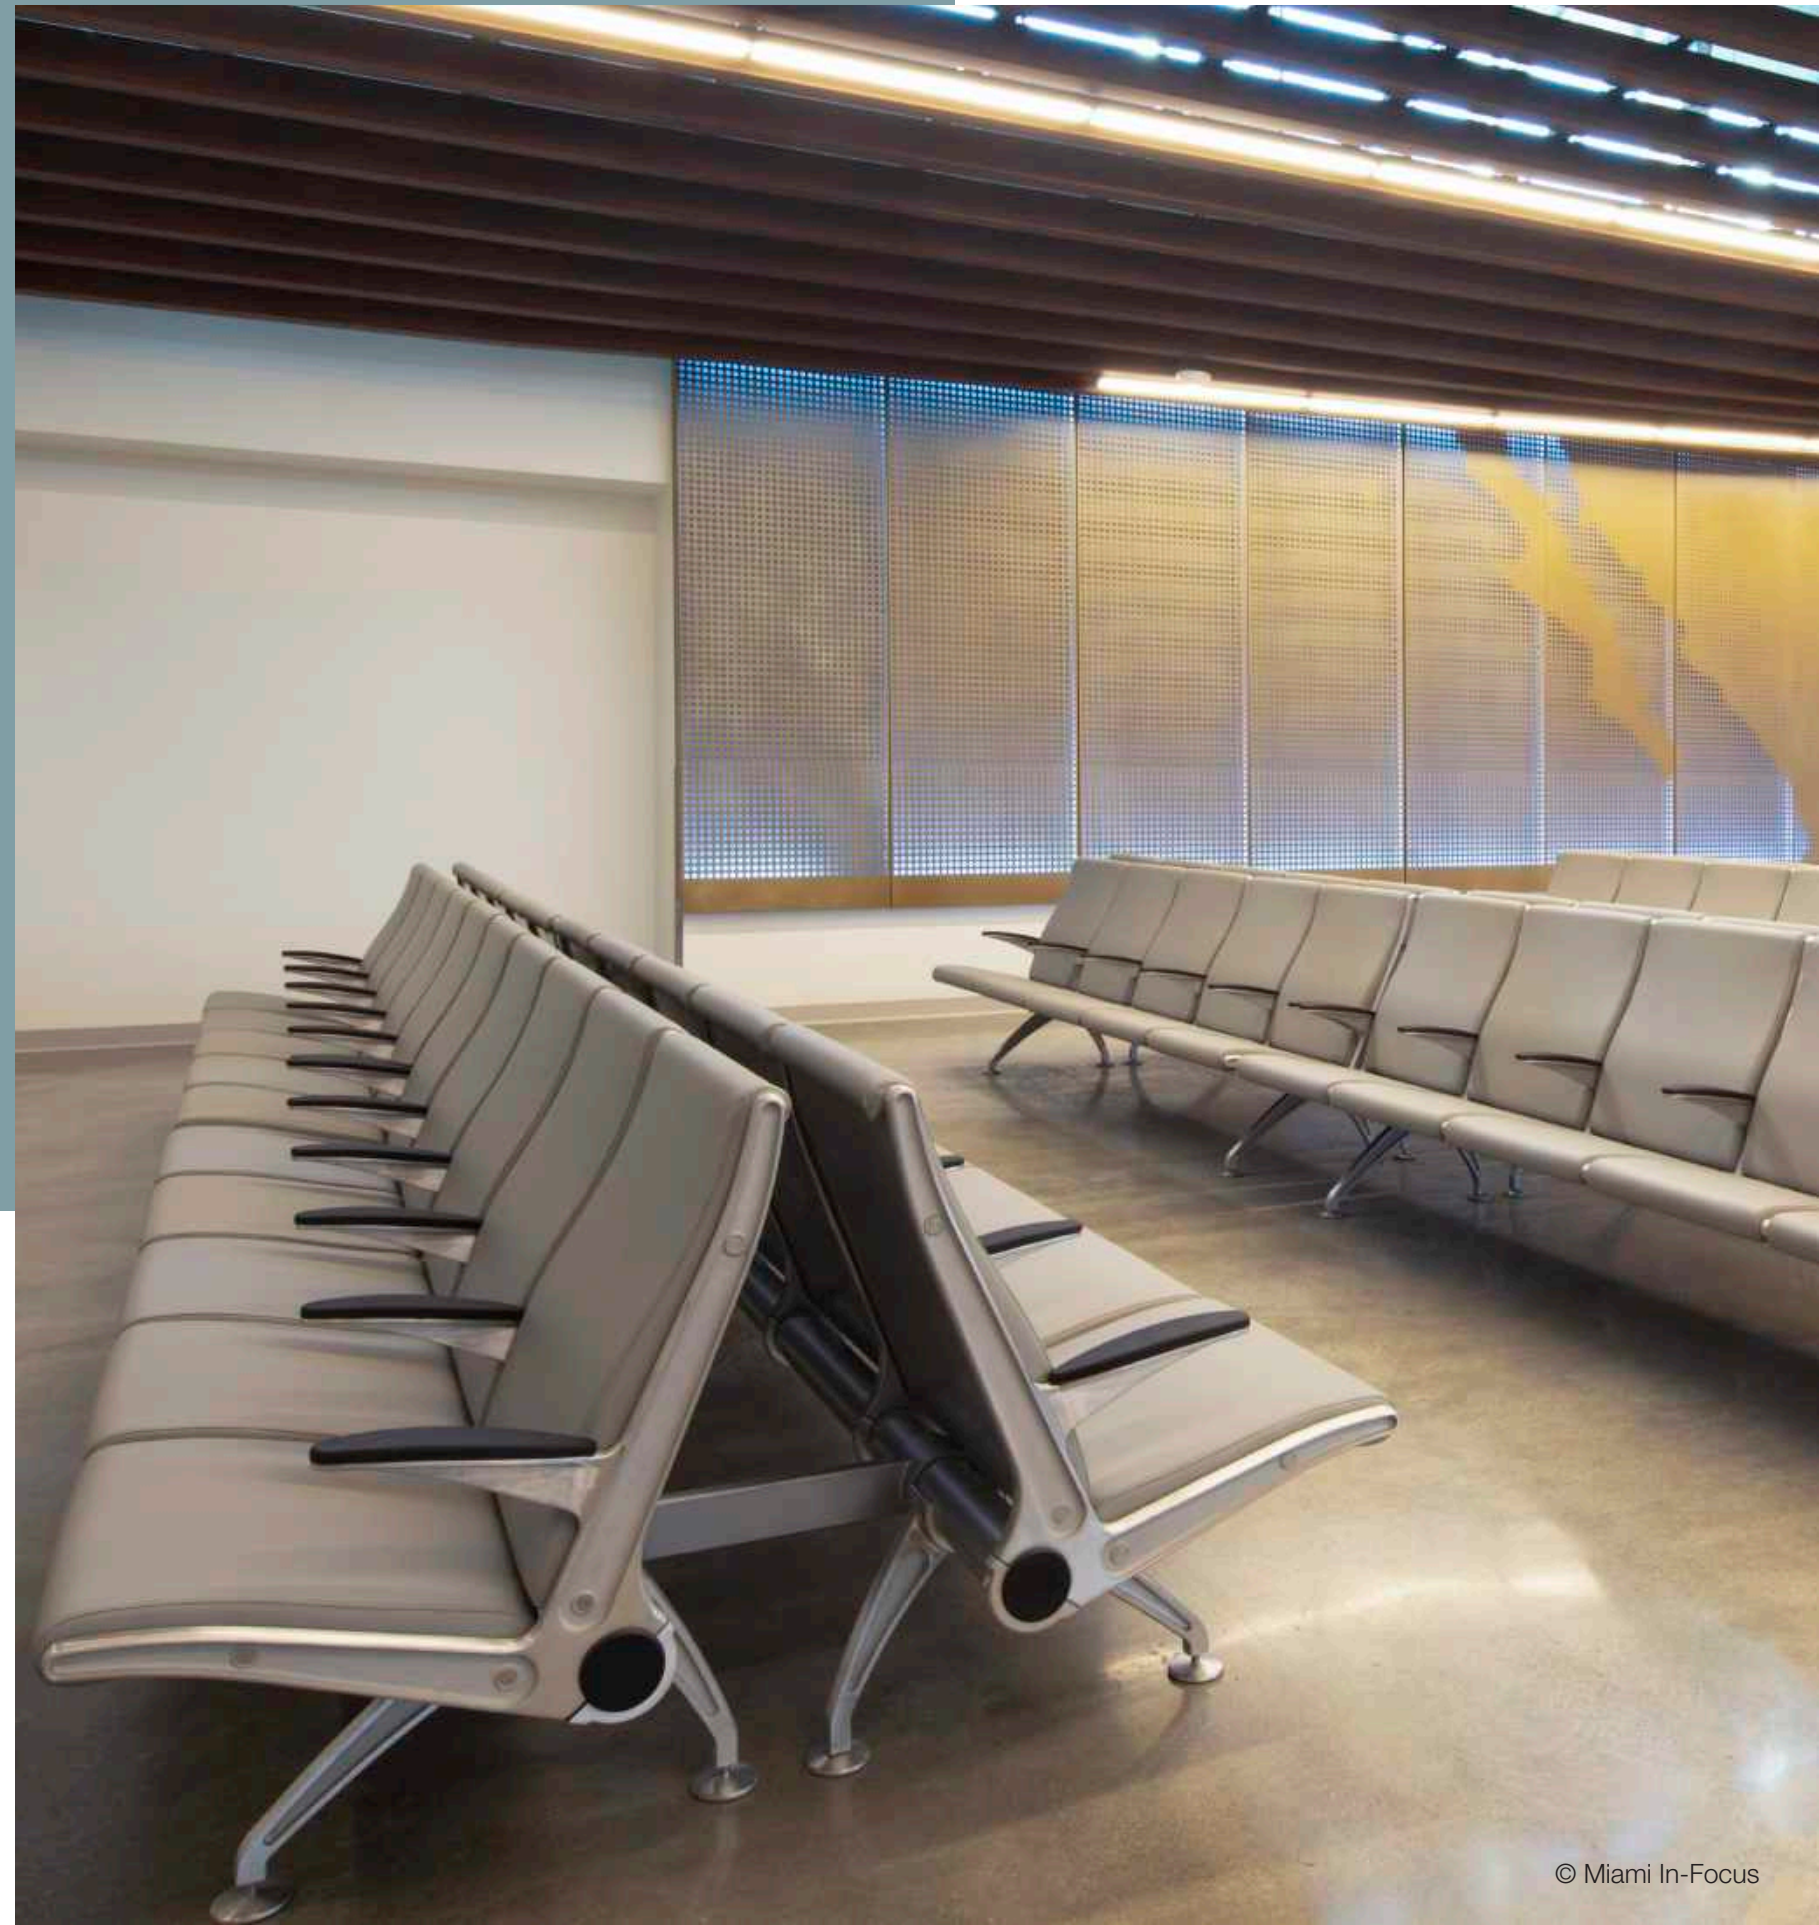

Created by award-winning designer Douglas Ball for high-impact settings, the contemporary Flyaway seating series emphasizes user comfort. Ergonomically contoured lumbar support, a higher backrest and substantial cushioning provide superior comfort for extended wait times in airports and public waiting areas.

Flyaway is available in linear and back to back configurations from two to ten seats with optional table positionings.

Fredericton International Airport, NB, Canada

Wichita Dwight D. Eisenhower National Airport, KS, USA

Lisbon Portela Airport, Portugal

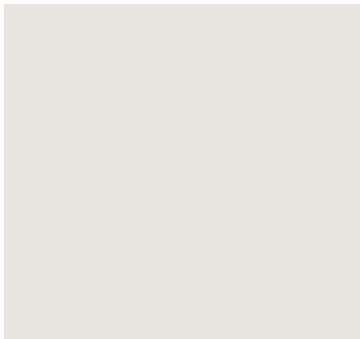

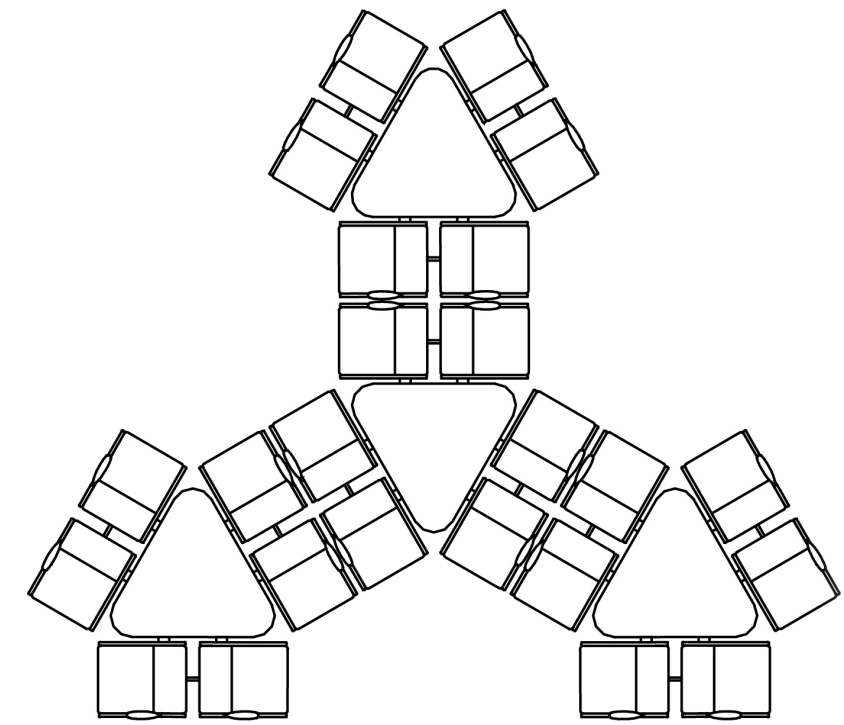

YYC Calgary International Airport, AB, Canada

Edmonton International Airport, AB, Canada

Clusters provide increased personal space for passengers while maximizing seat utilization for terminal operators. Installing diverse configurations is an effective way to maximize seating without making any compromises on comfort, style, and traffic flow.

Designed By:

Douglas Ball

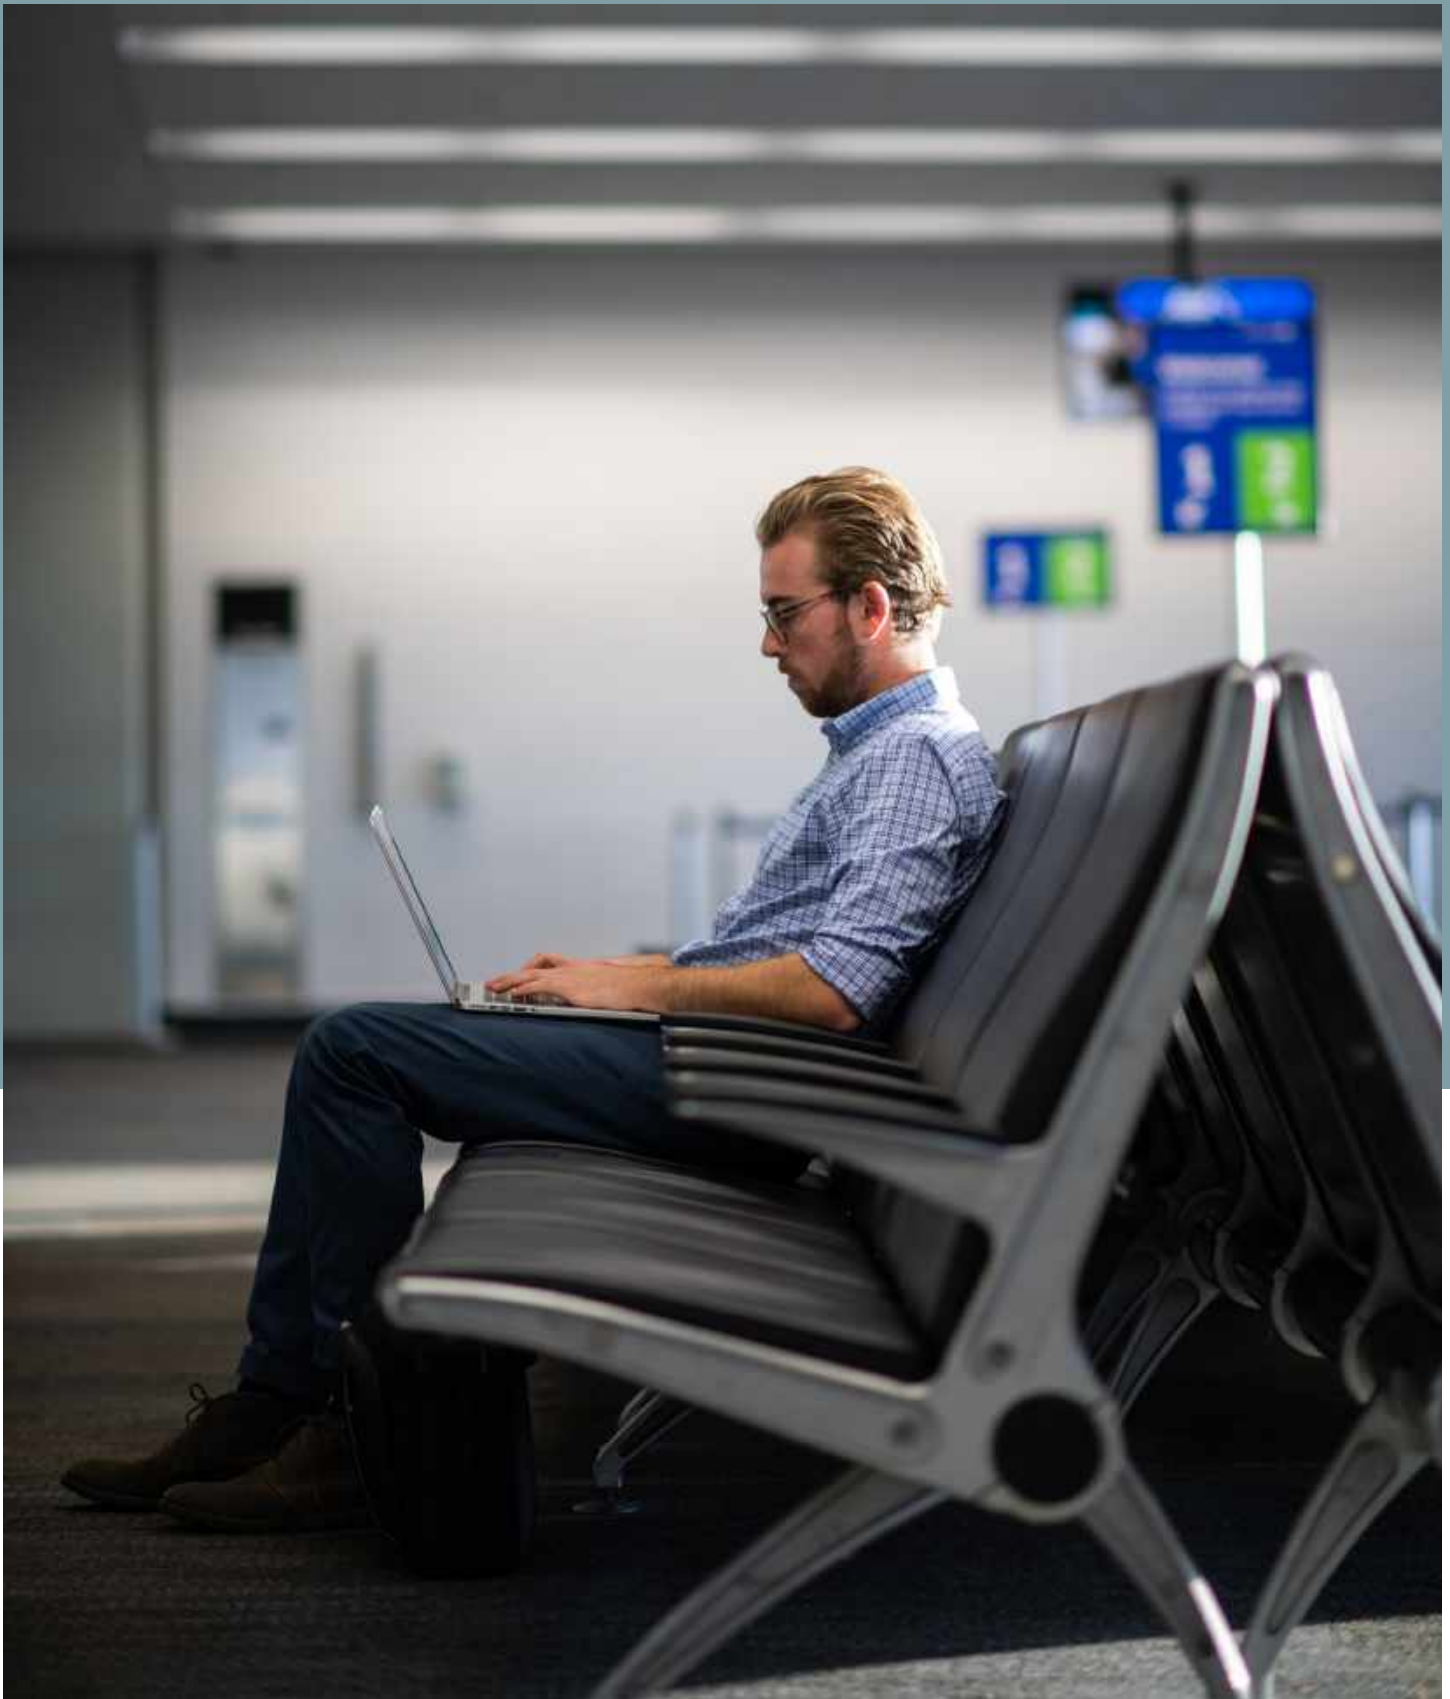

Industrial Designer

Doug Ball worked on Arconas projects from 1995 to 2011. His work can be seen and used across the globe, in airports, corporate settings and government offices.

Doug is an Industrial Design graduate of the Ontario College of Art. He is also a member of the FADIQ and IDSA associations.

The integration of technology and design has always fascinated Douglas. This serves as his inspiration and continues to challenge him to new designs as technology evolves.
