ARCONAS

V020625

Connex is ideal for spaces where people come together and connect with one another.

The Connex modular lounge collection is designed to offer unparalleled flexibility and adaptability for any space. Featuring either straight or curved bases, the Connex system allows for limitless seating configurations, perfectly tailored to suit various environments. Whether it's sleek, backless benches or comfortable seats with backs, Connex provides an effortless solution for changing needs.

Ideal for high-traffic areas or environments that demand flexibility, Connex transforms to meet the needs of any space. Whether arranged in straight lines for a minimalist look or in sweeping curves for an organic flow, Connex can also be customized into unique shapes, creating inviting spaces with aesthetic appeal and practical versatility.

Connex Curved

Connex Curved

The Curved Connex collection of sofas, benches, and tables create spacious, flowing lounge and waiting areas that invite people to relax and unwind.

Curved pieces can be connected to create shapes to complement the architecture of a space, or direct the flow of traffic and bring interest, personality and function to any space.

Connex Linear

The Linear collection features 2- and 3-seat sofas, ottomans, benches, and tables that can be connected together to create endless rows of seating. In-line and corner connecting tables can be added between seats.

Connex's wide armrests provide ample space for personal items and also act as a work surface with plenty of room for tablets and laptops.

Accessories & Options

CONSTRUCTION

Connex's structure is built for high traffic areas. Seat and back cushions are made from molded polyurethane CFC-free fire retardant HR foam. Product is made up of recycled content, produces low V.O.C. and is formaldehyde-free. Durable glides provide floor protection.

ARMS

Regular Arm

Large arm rests act as a tablet holder and provide an additional work surface.

Connex Power Arm

One AC power receptacle and one USB port can be integrated into any Connex arm to provide power. Each module is tested to UL certifications and has many built-in safety features.

LEGS

Connex legs are made from steel and finished in cloud silver powder coat. Units can be fixed to the floor.

Accessories & Options

TABLES

Connex tables are available as 12" (30.5 cm) or 24" (61 cm) end or intermediate tables.

End Table

Intermediate Table

4-Share Table

POWER

inPower™ Flex 3

inPower Flex 3 easily mounts below seats and tables and features two AC receptacles as well as two USB-A ports. Each module is tested to UL certifications and many built-in safety features.

Can only be installed on linear models.
North American module shown. European and UK modules available.

Environmental Sustainability

Arconas cares about the full life cycle of our products.

We deliver the world's most environmentally-friendly seating and furniture for passenger terminals and public spaces.

We were one of the first manufacturers in North America to introduce the use of injection-molded, CFC-free, cold-cured foam. Our foam and metal components are 100% recyclable. Our products meet the requirements of ANSI/BIFMA Emissions Standards M 7.1 2011, are low V.O.C. and do not contribute to poor indoor air quality.

We are ISO 9001 and 14001 certified. Our products can also contribute toward your facility achieving LEED credits.
