

ARCONAS

Place

Look Book

Toronto Pearson International Airport, ON, CA

Place was born out of the collaboration between Architect, Curt Fentress and Industrial Designer, Michael McCoy. Place is the next-generation public seating system delivering comfort and practicality in an elegant design. With integrated power and USB at every seat, generous tablet arms, drink holders, under-seat storage – and plenty of personal space – Place lets travelers work, read, game, or consume media in style.

Curt Fentress

Architect

Curt Fentress is the president and principal lead architect at Fentress Architects. Mr. Fentress has been awarded highest honors from both the American Institute of Architects (AIA), the Thomas Jefferson Award, recognizing “a portfolio of accomplishments that evidences great depth while making a significant contribution to the quality of public architecture,” amongst many others.

Michael McCoy

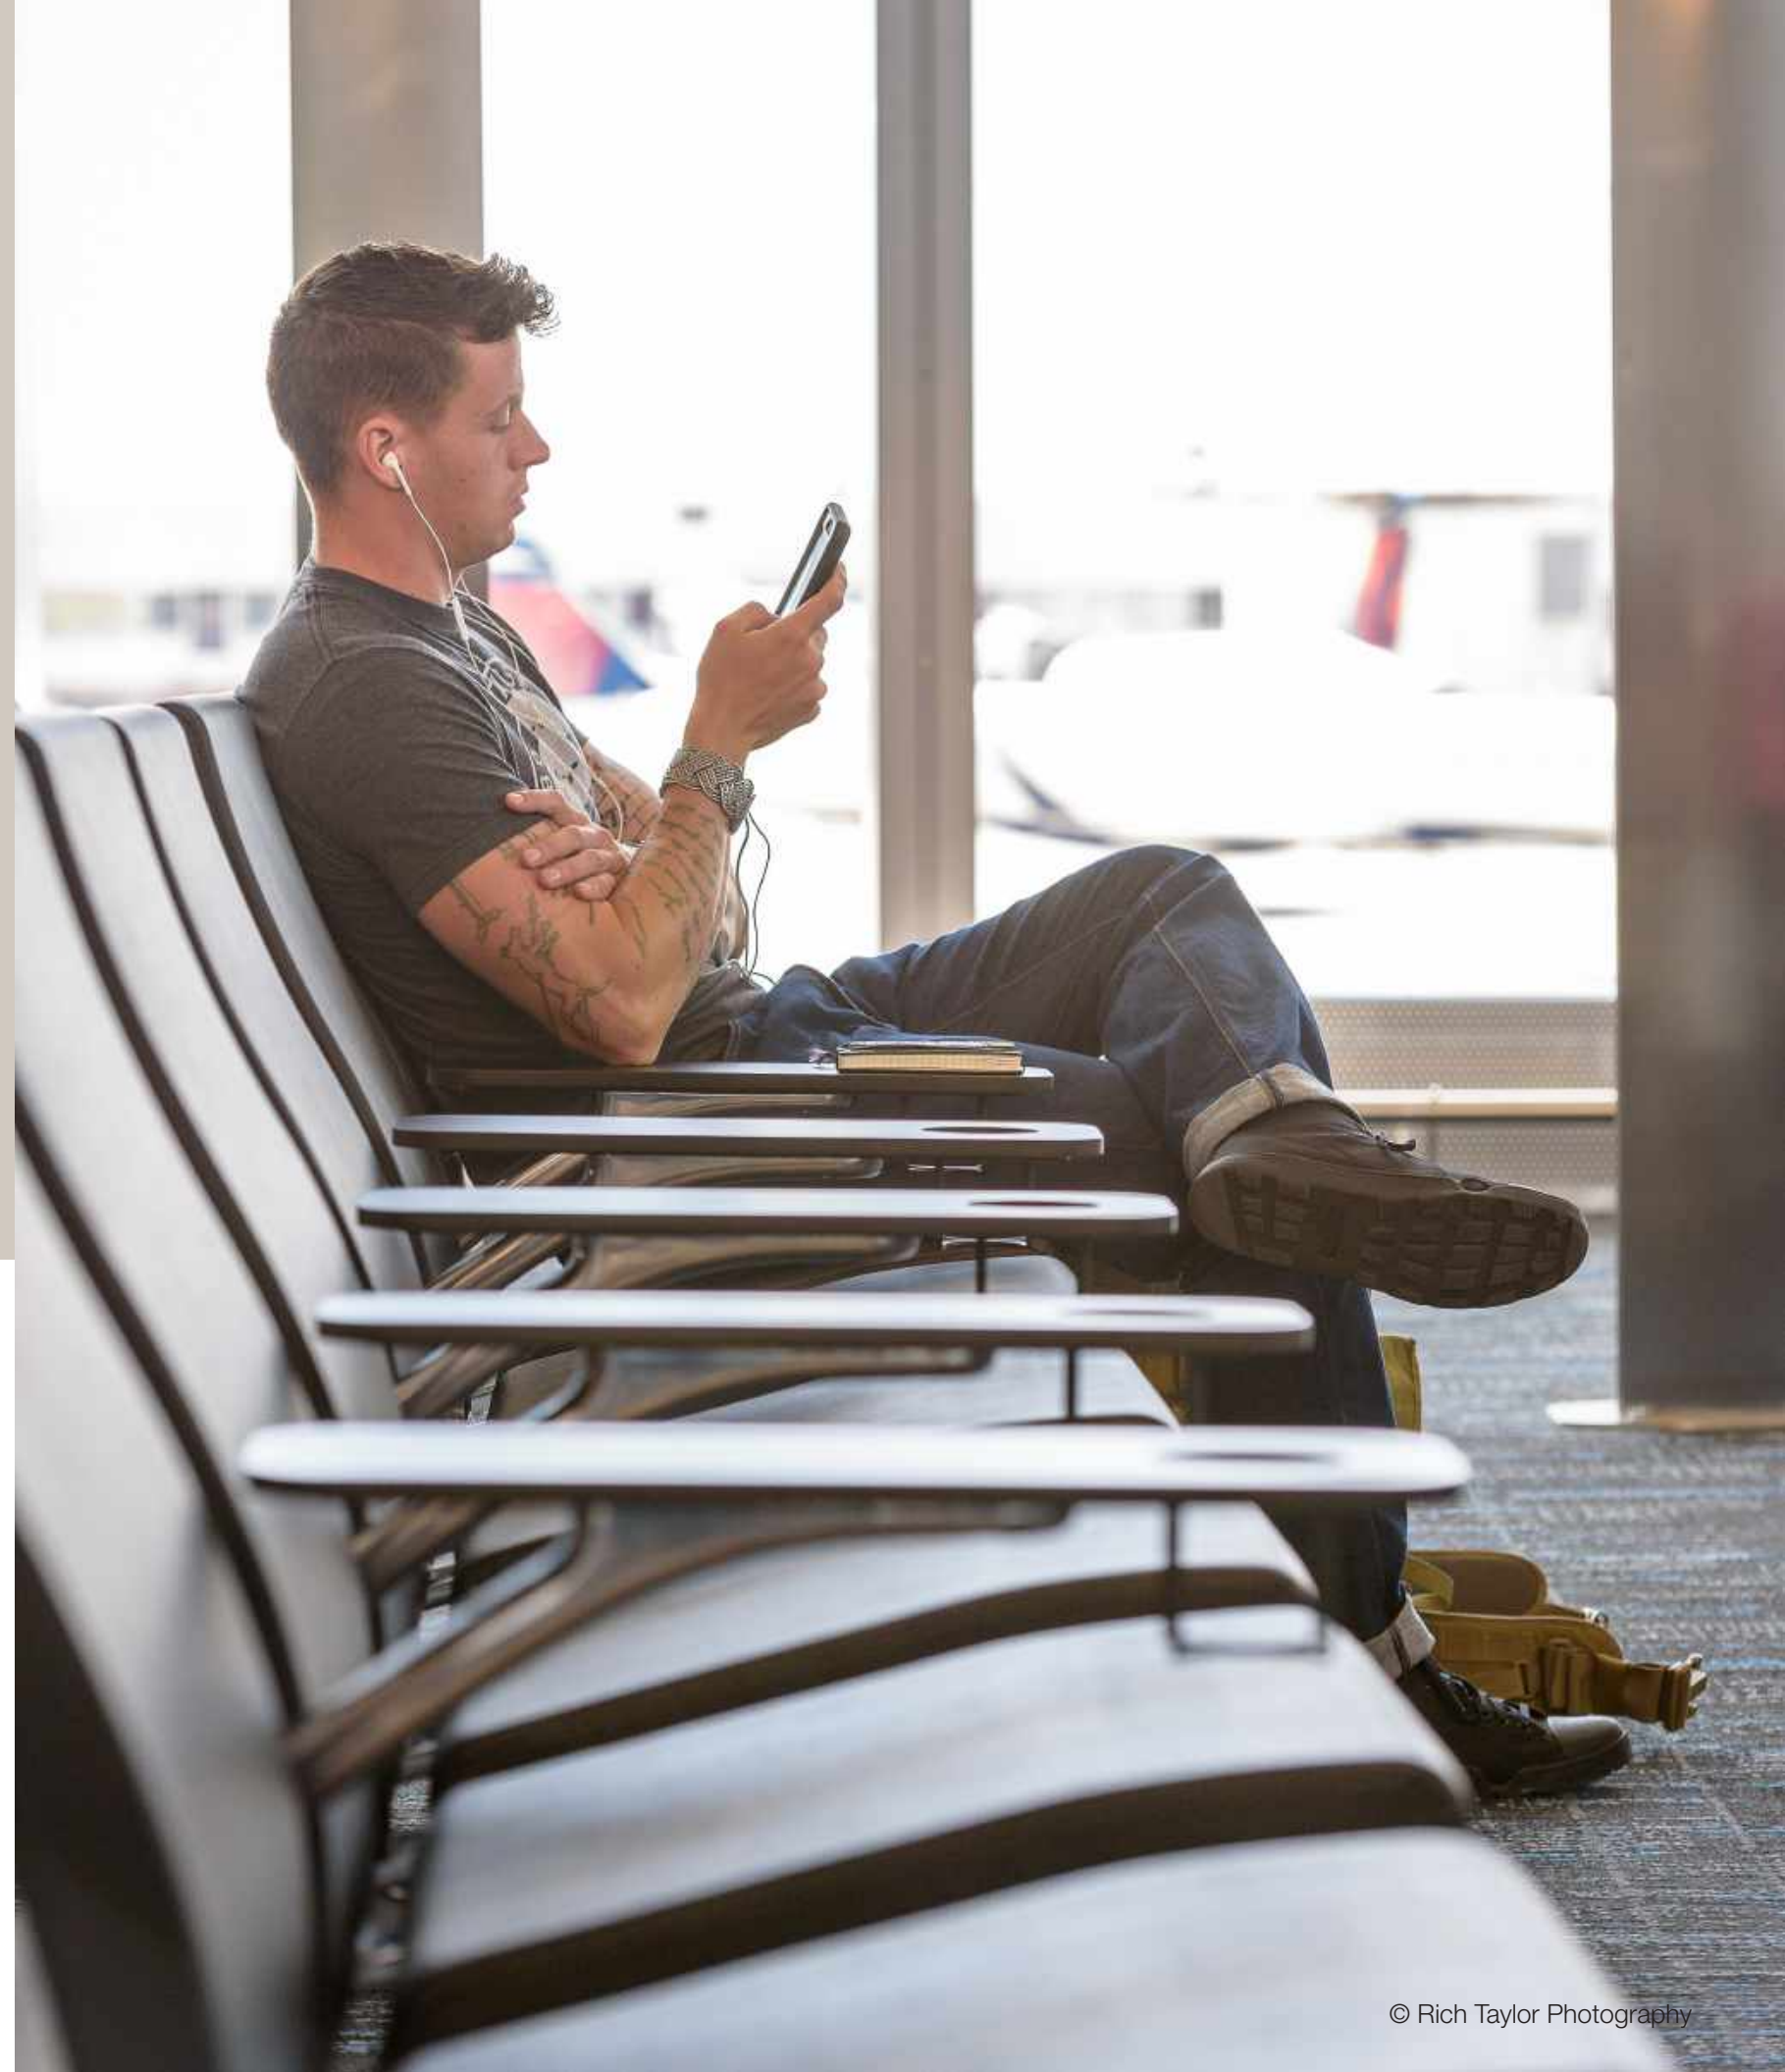

Industrial Designer

Michael McCoy is the first recipient of the Smithsonian’s Design Minds National Design Award for having ‘affected a paradigm shift in design thinking’. His designs have won many awards including the Red Dot Award and the IDSA Gold Award and are in the permanent design collections of New York’s Museum of Modern Art and the Smithsonian’s Cooper Hewitt National Design Museum.

Charlotte Douglas International Airport, NC, USA

Fort McMurray International Airport, AB, Canada

Place power arms are equipped with two USB ports and one AC receptacle for convenient at-seat charging.

International outlet options are also available.

Orlando International Airport, FL, USA

Phoenix Sky Harbor International Airport, AZ, USA

**With Place, every seat
is the best seat in the house.**

Place is available with a variety of arm options including tablet and drink holder arms.

Denver International Airport, CO, USA

Buffalo Niagara International Airport, NY, USA

Montréal-Pierre Elliott Trudeau International Airport, QC, Canada

CLUSTERS

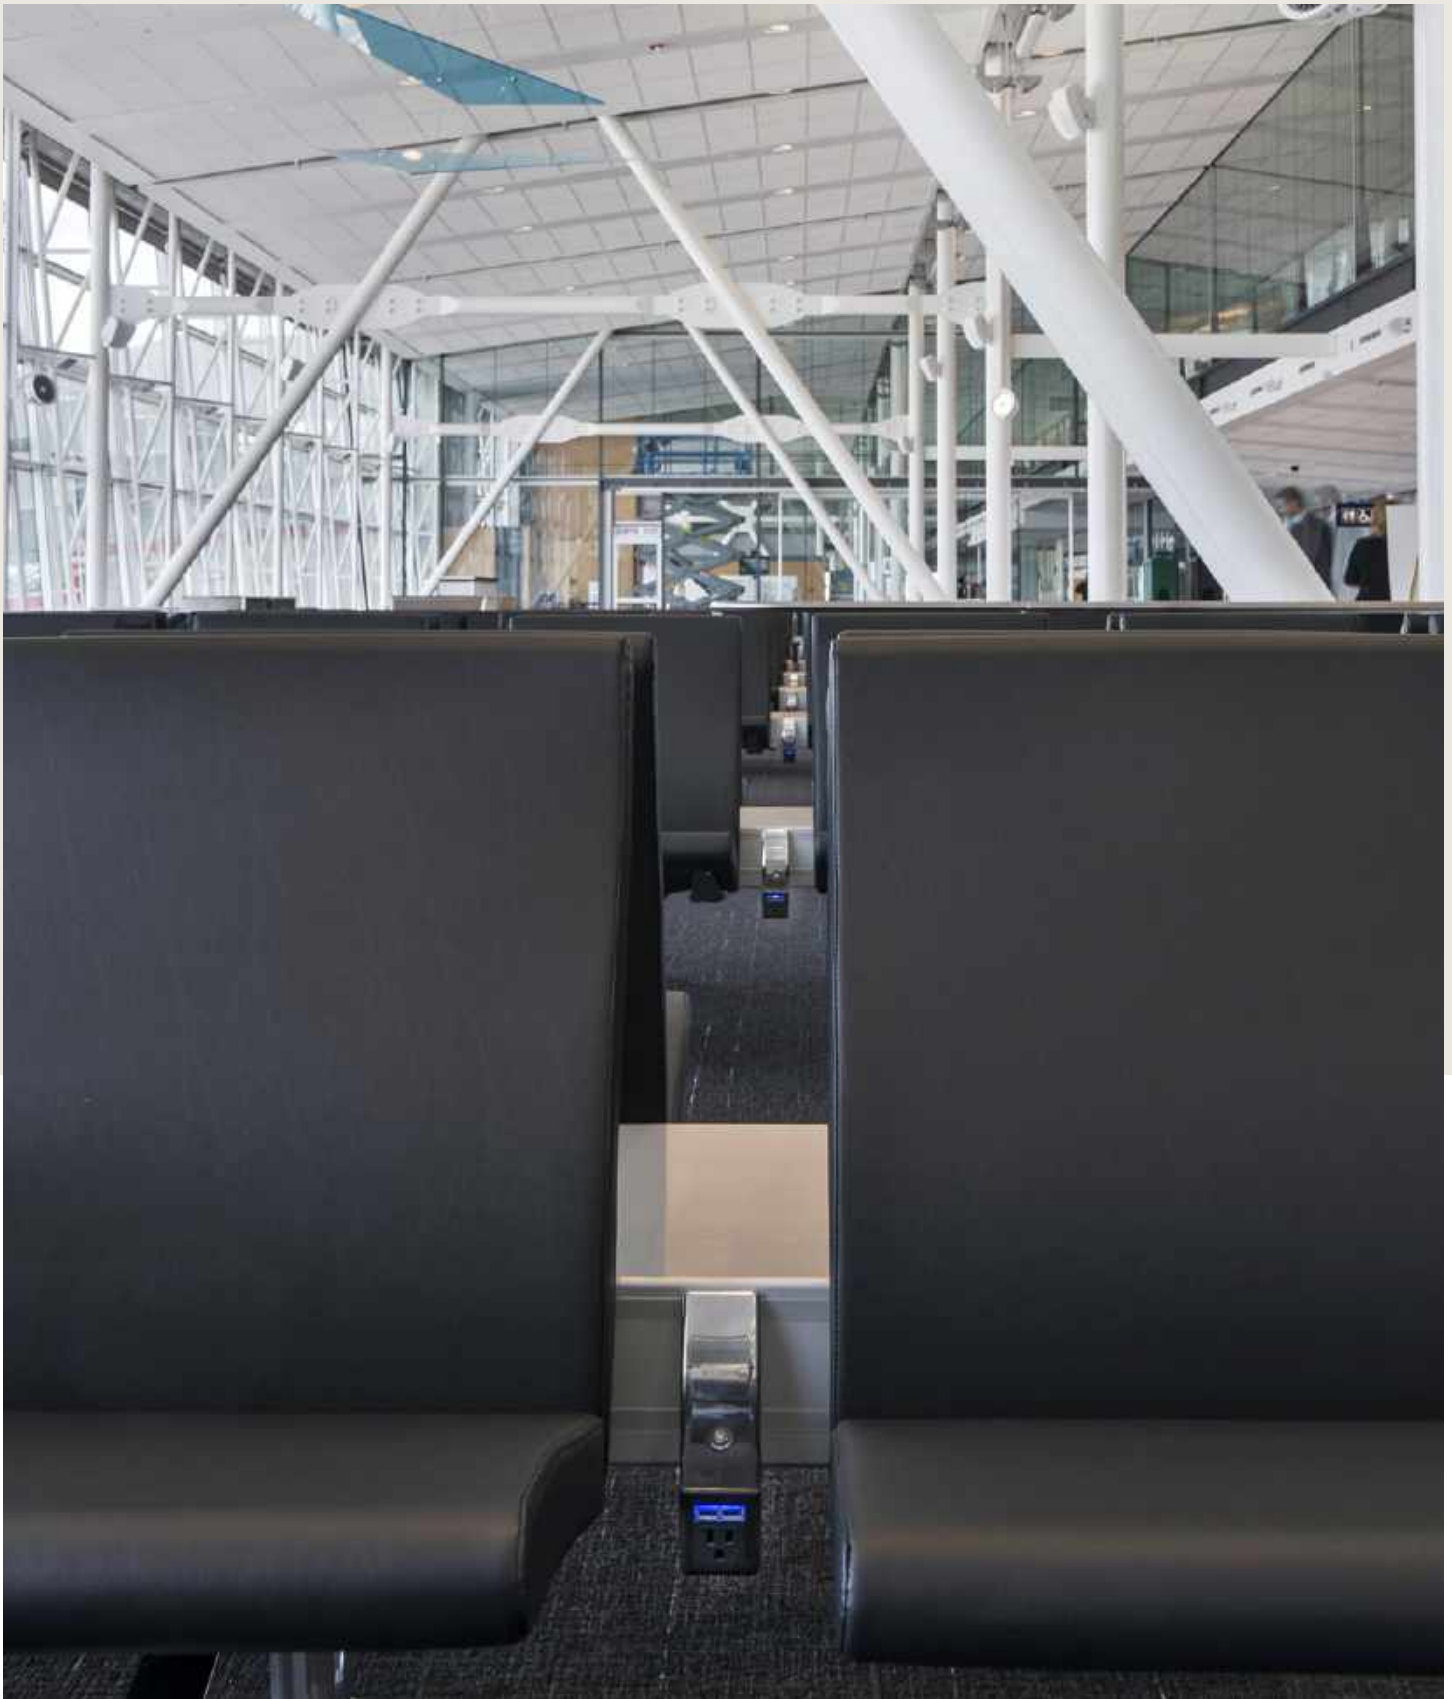

Place is available as a 3-seat or 12-seat cluster unit. The Place triangular cluster provides extra personal space and privacy, while maximizing seat utilization.

WIRELESS CHARGING

Place tablet arms are available with seamlessly integrated wireless charging for a fast and convenient boost without the use of a cable.
